

FOR THOSE WHO DIED TRYING

PHOTO EXHIBITION

9-11 May 2016 | Place des Nations, Geneva | Free event

Opening 9 May 14h30

With the keynote address of the United Nations Special Rapporteur on the situation of Human Rights Defenders, Michel Forst, and two Thai human rights defenders.

Protection International invites you to the photo exhibition "For those who died trying" which presents the photographs of 37 murdered or abducted human rights defenders (HRDs) in Thailand.

The project looks to remember those who died defending human rights and protecting the environment by placing a portrait of the human rights defender, where possible, at the exact place he or she was murdered or abducted.

It is vital, for the victims and their families, that their fight and their death is not forgotten and left un-recognised. Ultimately, those responsible must be brought to justice. Recognising those who died trying as HRDs and a better administration of justice are critical steps to end these killings.

PROTECTION INTERNATIONAL is an international non-profit organization that provides protection strategies and tools for security management to human rights defenders who are at risk.

Introducing photographs by Luke Duggleby.
